Rapid Thaw™

All Natural Granular Deicer

Rapid Thaw is an all-natural, uniquely colored granular deicer containing only naturally occurring ingredients harvested from the Great Salt Lake. Starting with the tried and true technology of sodium chloride, Rapid Thaw is enhanced with magnesium chloride increasing its melting power and "stick" when applied. Rapid Thaws consistent gradation ensures ease of application, and the long lasting deicing that is needed for most agencies winter maintenance operations. Rapid Thaws unique coloring allows thermal energy from the sun to be absorbed into the granules and assist with melting with less clean up after the storm. For long lasting, all natural and consistent deicing use Rapid Thaw Granular Deicer.

Chemical Analysis•

Table with 4 columns: Components, Units, Typical, MIN/Max. Rows include Sodium Chloride, Ca + Mg, Moisture, and Water Insoluble.

Sieve Analysis (SIZE)•

Table with 2 columns: U.S.S. MESH, % Wt. Passing MIN/Max Range Typical. Rows include 1/2 inches, 3/8 inches, #4, #8, #16, and #50.

PNS QPL Approval Category 8B
