

***Works down to ZERO degrees!  
Quick Delivery from a GMCO Facility  
Ease of scheduling through one point of contact***

**HIGH PURITY**

***Solar Salt Product:  
99.9% Pure  
3%-6% Purer than Mined  
Product***

**MORE ACTIVE  
CHLORIDES**

***More Active Chlorides  
Less Insolubles  
Better Value for Price***

**UNIQUELY  
COLORED**

***Natural Color does not Leach  
Dissipates After Snow Event  
Thermal Energy can be  
Absorbed***

**ALL NATURAL**

***3% Naturally Colored Minerals  
Liquid  $MgCl^2$  Treated  
YPS Added for Anti-Caking***

**ENHANCED  
WITH  $MgCl^2$**

***Lowers Freeze Point  
Reaction Speeds up Melting  
Goes into Brine Faster  
Less Product Loss***

Thoughtfulness has been the driving factor behind the design of Torch RT. Careful consideration of customer needs, materials, and the many variables associated with deicing operations led to the creation and subsequent manufacturing of the best performing deicing granules available. In order to perform better than the competition, GMCO has meticulously sought out the highest quality ingredients and combined them to create Torch RT.

**PREFERRED BY PRIVATE CONTRACTORS. USED BY CDOT.  
APPROVED BY DEPARTMENTS OF TRANSPORTATION FOR OVER 10 YEARS.**
